

He mind'em but us  
You mind'em but im  
We all be good

# DOG WORMS

Dogs have worms  
in their guts

You can't see them  
in the dogs,

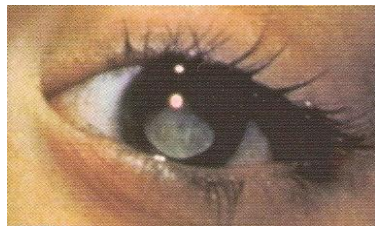

in the soil

or on your hands

Worms make dogs sick and they make people sick

The more dogs that get treated at one time, the less problems there are for everyone

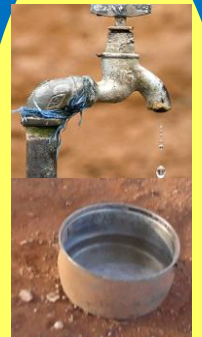

# Stopping Worms

Break the life cycle

Medicine like Cydectin kills the worms inside the dog

Washing hands and washing dogs stops the worms spreading and getting inside people and dogs

Worm eggs need wetness to hatch, grow up and live
